

Proficy™ HMI/SCADA iFIX® 3.5 with FIX® Desktop

The Convergence of FIX with Proficy HMI/SCADA – iFIX

Great news for HMI/SCADA customers! Our FIX and Proficy HMI/SCADA – iFIX applications have finally been brought together, thanks to an exciting new release of the Proficy HMI/SCADA – iFIX module which includes the classic FIX desktop operator interface environment. Users of both applications can benefit greatly from this enhancement, which combines many of the latest features and mainstream technology of our Proficy HMI/SCADA – iFIX module with the traditional FIX desktop that customers have relied upon for over 20 years.

This important release effectively bridges the gap between the two technologies, enabling FIX customers to take advantage of many of the advanced database and connectivity features of Proficy HMI/SCADA – iFIX, while continuing to view and control their plant-wide processes in the FIX desktop environment. Best of all, this simple add-on is transparent to your existing infrastructure, allowing you to continue leveraging your current HMI/SCADA investments without having to re-configure your system.

- **Get Updated With the Latest Technology**
FIX users can now experience many of the latest features of Proficy HMI/SCADA – iFIX 3.5, including:
 - New displays with ActiveX, OPC Support, VBA and more
 - ODBC database and Historian connectivity
 - VisiconX relational database connectivity
 - AB Productivity Pack
- **Implement Quickly and Cost Effectively**
No “graphics conversion” is required, allowing you to keep your current system up and running and eliminating the need for a costly re-configuration.
- **Capitalize on Proprietary FIX Graphics**
Proficy HMI/SCADA – iFIX customers now have access to the classic FIX graphic environment, allowing you to launch SPC, XY and histogram charts along side your Proficy HMI/SCADA – iFIX application, with tools including:
 - FIX Draw
 - FIX View
 - History Trend Display – HTD

- **Continue to Benefit From New Enhancements**
As Proficy HMI/SCADA – iFIX continues to be enhanced and developed, our FIX customers will be able to take advantage of future product improvements.
- **Migrate to Proficy HMI/SCADA – iFIX if Desired**
Additional migration tools are now available, allowing you to upgrade fully to the Proficy HMI/SCADA – iFIX application at a later time if you so choose.

Proficy HMI/SCADA – iFIX with FIX Desktop represents a significant leap forward for users of both technologies. For more information about how this important new release can enhance your HMI/SCADA investment, contact your GE Fanuc sales representative, call **1-800-GE Fanuc** or visit us online at www.gefanuc.com.
